

## Electron Paramagnetic Resonance Unit Rates

ELECTRON PARAMAGNETIC RESONANCE				
Type of measure	Internal Users (€/h)	CSIC's Users (€/h)	OPI's, non Profit (€/h)	Private Company (€/h)
Measures at room temperature	10,50	12,32	40,34	44,18
Measures r/t with UV irradiation	11,63	13,64	41,80	45,78
Measures at variable T (ta-373 K) <sup>1</sup>	11,55	13,55	41,71	45,68
Measures at variable T (80 K-300 K) <sup>2</sup>	12,94	15,18	43,50	47,64
Measures at variable T (4-300K) <sup>3</sup>	32,19	37,76	76,06	83,31
Interpretation of results and report <sup>4</sup>	20,62	24,19	82,06	89,87

<sup>1</sup> N<sub>2</sub> dry gas included

<sup>2</sup> N<sub>2</sub> dry gas and liquid Nitrogen included

<sup>3</sup> Liquid Helium included

<sup>4</sup> Rates for report presentation

### Considerations of interest for previous rates:

1. The service is provided by qualified technical personnel.
2. Special rates or partial rate exemptions will be agreed in case of collaborations in scientific projects, depending on the collaboration contract, number of samples and night service hours, under the criterion of sharing expenses. In these cases, the interpretation and preparation of the report will not be charged, as part of the collaboration.
3. In the event that, for the duration of the experiment, it is possible to carry out measurements at night, a reduction of 15% of the fee will be applied.
4. The price of the OPI's and External tariff do not include the current VAT (21%).
